

Canvas 13.3 CNC

AES-1330CNC

A CNC aluminium color E-Ink frame for product evaluation, gallery-style displays and branded spaces. Start with a sample before specifying a project batch.

Supply form	Finished frame
Resolution	1600 × 1200
Pixel density	150
Display area	202.8 × 270.4 mm
Enclosure	Confirmed for the selected enclosure and mounting
Power	5,000 mAh rechargeable battery; 10,000 mAh option
Image updates	Wi-Fi image push and TF-card image import

Standard scope

- 13.3-inch E Ink Spectra 6 display
- CNC aluminium enclosure
- Rechargeable battery and Wi-Fi configuration
- Factory firmware agreed for the project

Options and installation

- 10,000 mAh battery
- Enclosure finish and mounting adaptation
- BLE, wired or PoE integration, subject to engineering review
- Customer firmware loaded at the factory

Discuss the wall, shelf or suspended fixture before ordering. Mounting interfaces can be adapted to the project; do not assume every bracket is included.

Ordering and software scope

Sample and batch orders are available by quotation. Configuration, production lead time and shipping are confirmed before order acceptance.

Confirm price, taxes, freight, warranty and compliance documents in the quotation. Scheduling, groups and CMS/API require a demonstration and agreed scope; the expanded MagiRealm content engine remains on the roadmap. Image retention power is not a whole-device power or battery-life specification.
